

(Catalogue updated 15th December 2011) Bromeliad SEED
 If you purchase seed & do not get reasonable germination? Email me
 and receive a credit or refund for any seed that does not perform.

Please send email &/or phone number contact, when sending any order with payment, as some stock may be sold out, if you have not made contact with me prior to sending your request.

Postage & handling, with in Australia; of seed? If your address is a P. O. Box? (registered post, not necessary). Postage is \$2.00. Otherwise for most city addresses, add \$3.00 for registered post.

Postage international & handling; \$5.00 Aus ORDINARY AIR-MAIL up to 6 pkts of seed only.

Due to varying import requirements of many countries, **sending seed, seedlings or plants overseas**, will depend on the importer checking that there are no restrictions for bromeliads to their country. Or buyer takes responsibility for order arriving?

Terms used in seed/seedling price list; “**F2 crosses**”? By this I mean that a cross of the plants listed in the **POD PARENT** column were crossed with sibling plants (i.e. sibling; another plant from the same parents) & will be shown with the notation **F2** in the **POLLEN PARENT** column

In the Neoregelia, some seed crosses are marked with *, this implies that this seed was designed to produce seedlings with dramatic colourful top foliage on flowering or a % of seedlings with foliage variegation (white or cream stripes in foliage).

Some common abbreviations used;
 B. DM – Billbergia Domingos Martins
 B. WS – Billbergia Windigig Special
